

Pan East General Contracting Company

Project Quality Policy

Pan East General Contracting Company (PEGCCO) Quality Assurance Policy has been implemented to ensure that all products that are supplied and constructed in full accordance with our various Client's requirements. These entire client based requirements as stated in our client's documentation and contracts are fully adhered to by PEGCCO and thereby thus ensuring that all our client's requirements are determined and fulfilled with the aim of enhancing seamless customer satisfaction.

To implement this policy, Pan East General Contracting Company PEGCCO maintains an effective and efficient quality system that been established, planned and developed in conjunction with other management functions.

The Quality Assurance System as detailed in the Project Quality Plan (PQP), with the supporting Procedures is in line with Pan East Quality Policy and it refers to all relevant aspects of planning, installation and pre-commissioning from engineering through design (as specified in the contract), material procurement, project management and the construction activities until final hand-over of the project.

Specific Procedures, such as Quality Control Procedures (QCP's), Method Statements (MS's), Inspection and Test Plans (ITP's) and Project Procedures (PP's) will be developed and implemented to ensure that all quality aspects of the work are fully addressed.

The above Project Quality Policy and the requirements are issued by the undersigned Senior Projects Coordination Director and the Management Representative for Quality on behalf of Pan East General Contracting Co PEGCCO for the Project and communicated and understood within Pan East organization.
